### Dayton Preschool Mission

Working with families to  
*Inspire, Engage, and Grow* each  
of our Preschool Students to  
support Kindergarten  
Readiness.

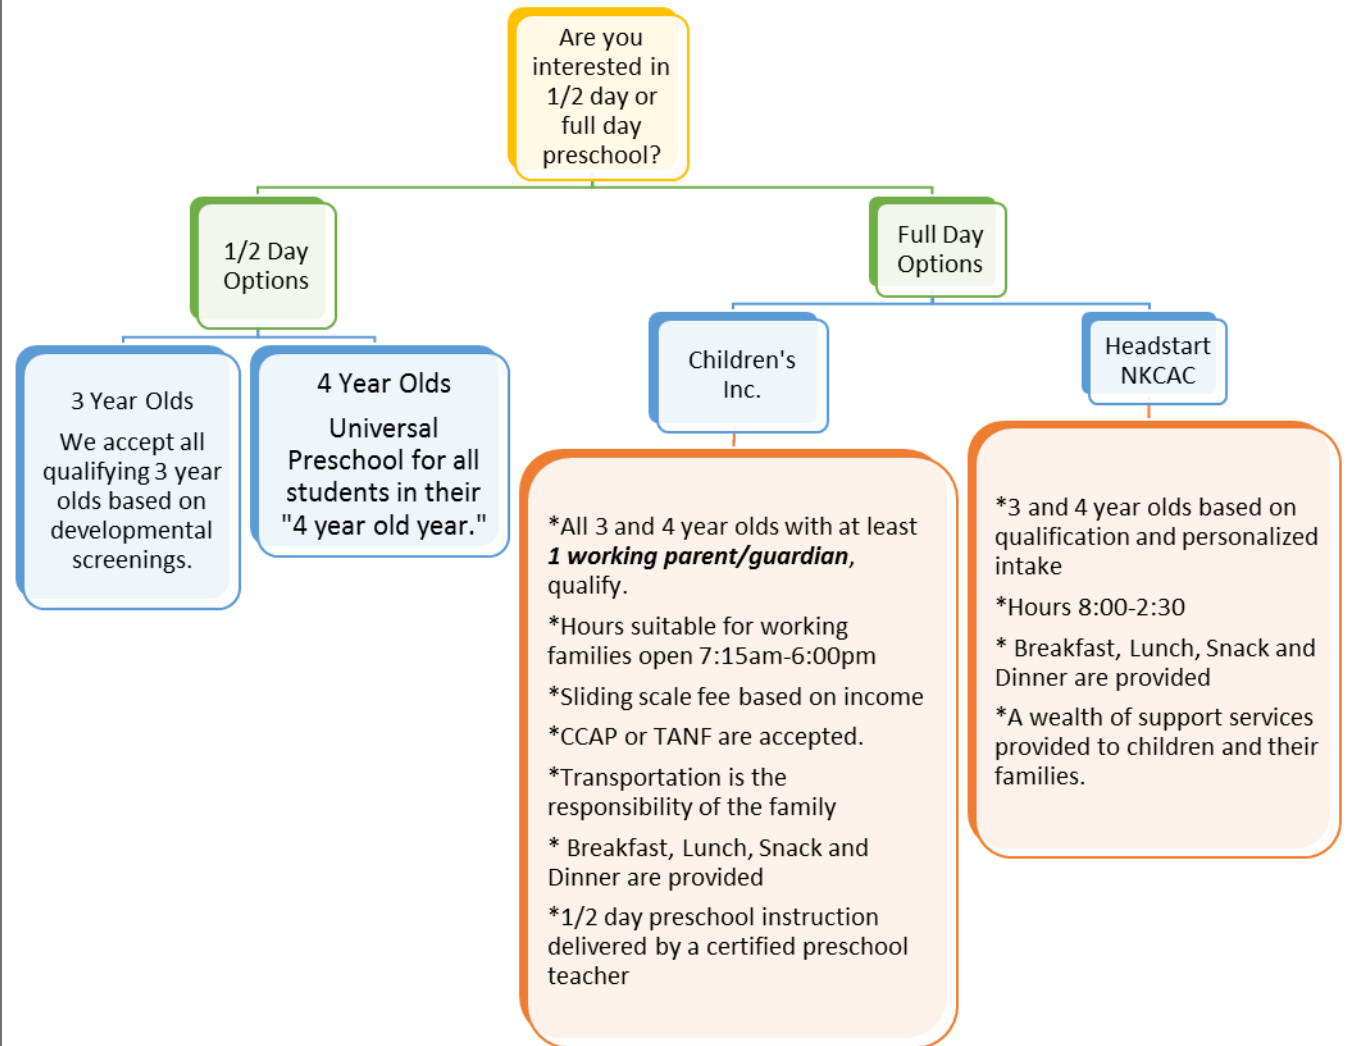

The Dayton Independent Schools are dedicated to providing families with children ages 3 and 4 with a positive and nurturing learning environment. Our preschool is a developmentally appropriate program; balanced with structured activities and activities of the child's choice. Preschool focuses on the cognitive, language, physical, social and emotional development of each child. The Dayton Independent Schools' Preschool encourages children to explore, question and make discoveries in their environment. The children engage in hands on learning while the teachers are making observations and documenting their progress. Preschool teachers will conduct or inquire about health, vision, hearing, and will complete developmental screenings in the areas of cognitive, language, motor, self-help and personal-social skills. The screenings, along with parent education, community resources, and social services, help to reduce/remove any barriers to learning.

#### Family Involvement:

- Participation in the classroom and other activities as volunteers
- Two home visits
- Evaluation of the program
- Parent led support teams

#### Q: Does my child have to be potty trained for preschool?

A: NO! We have the supports to help your child move towards independent toileting when they are ready.

#### Q: I am afraid my child isn't ready for preschool. Is this okay?

A: Yes! We have options for ALL 3 and 4 year olds, regardless of ability.
